

REGISTER

De jaren zestig. Een cultuurgeschiedenis bevat een uitgebreid register op namen, titels, plekken en begrippen. Wegens plaatsgebrek konden echter lang niet alle items vermeld worden. Hieronder een vrijwel exhaustieve lijst. (Met dank aan Sophie van Hellenberg Hubar en Tom Gerritsen.) Cursieve titels betreffen films, albums, boeken, kranten, tijdschriften, composities of tentoonstellingen; liedjes, gedichten of kunstwerken staan tussen enkele aanhalingstekens. Paginanummers zijn niet vermeld – dat zou enkele extra werkweken kosten. In het e-book zijn ze snel terug te vinden en ook via de digitale versie van het boek op Google Books lukt dat heel vaak.
